

# Water Hammer Arrestor

group: PEG62    category: afsluiters    product line: Pegler Pressure Reducing Valve

The PEG62 is a water hammer arrestor with a male tapered thread end

## applications

 potable water

## segments

 industry

 commercial building

## approvals

no approvals available

## assortment

code	size	weight	dimensions	packaging	gtin
5A2080	R1/2	0.48 kg	50x100x60 mm	-	05022050390547

## specifications - product info

item	Water Hammer Arrestor
item number with gtin	PEG62 (05022050390547)
manufacturer	Aalberts integrated piping systems Ltd (Pegler)
size	R1/2
weight	0.48 kg
dimensions	50x100x60 mm

## specifications - characteristics

color	brass
materials	brass (CW617N)
finishing	none
shape	End coupling
connection type	G - male thread gas cylindrical (BSPP)
pressure rating (PN)	PN 40
sealing	NBR (Nitrile)

## specifications - technical

max operating pressure liquid	40 bar
-------------------------------	--------

## specifications - general

product group	valves (safety relief valves)
ETIM class	<b>EC010600 Water hammer arrestor</b>
HS code	84818099
brand	Pegler
series	Pressure Reducing Valve
product type	PEG62
UNSPS	40141763
